SUMMARY

I'm a Software Engineering student currently pursuing my BSc, and I am into building software that solves real problems. As a full-stack developer, I enjoy both the logic of backend systems and the creativity of designing user experiences. When I'm not coding, you'll often find me playing chess, exploring new places, or studying more about Artificial Intelligence. I'm excited to grow as a software engineer, collaborate with great teams, and contribute to meaningful projects.

EXPERIENCES

, APU Blockchain and Cryptocurrency Club   **August 2024 - December**

- Role: Developer Relations and Web Developer, APU Blockchain and Cryptocurrency Club
- Collaborate with Web3 companies to organize workshops, bootcamps, and hackathons.
- Facilitate student learning in blockchain and cryptocurrency technologies.
- Contribute to the development and maintenance of the club's website.
- Please make sure the website effectively communicates initiatives and engages the community.

DDROOM   **December 2024- Present**

Working as a Full Stack Engineer at DDROOM, building scalable web applications using Next.js for the frontend, Node.js with Express.js for the backend, and MongoDB for the database. Also responsible for integrating OpenAI models like ChatGPT and Whisper to enhance platform functionality. Involved in designing RESTful APIs, optimizing application performance, and ensuring seamless deployment and maintenance of the platform.

EDUCATION

Bachelor's of Science in Software Engineering (Hons)   **March 2023 - Present**

PROJECT

News Portal - Link

- Developed a full-stack news portal using next.js, express.js, Firebase Authentication, and Tailwind CSS.
- Designed a user-friendly interface for seamless browsing and reading experiences.
- Integrated secure authentication and real-time data updates using Firebase.
- Enabled content management for administrators and interactive features for users.

Gentoman

- Developed a fortune-telling mobile application for a client using React Native and Tailwind CSS.
- Implemented intuitive user interfaces and seamless navigation to enhance user experience.
- Optimized application performance and ensured cross-platform compatibility while adhering to best practices in mobile development.

ADDITIONAL INFORMATION

- **Technical Skills**: NextJs,SvelteKit, Express.js,typeScript, MongoDB, Next.js, Microsoft 365, Microsoft SQL Server, Search Engine Optimization, python,langchain, C++,
- **Specializations:** Business Development, Business Planning, Client relationships, Cold Calling, Customer Relationship Management (CRM), Customer Service, Interpersonal Communications, Strategic planning
- **Languages:** Bengali - native Proficiency, English - Proficiency, Hindi - Proficiency
